Introduction

Overview

The **Visual Dietary Program** is a computerized processing of patient's diet requests from the nursing stations. Through a computer network, the program can receive requests, can view discharge notice and can access list of patients to use for the transaction. The program automatically provides the reports needed to lessen legwork.

The use of password protects the entry of unauthorized users. Only users with registered employee number and password can use the Visual Dietary Program.

Objectives

To lessen the steps involve in processing diet requests by automating the communication between departments in the Dietetics and Nutrition and Nurse Stations, and Dietetics and Nutrition and other hospital departments.

Features

- **Data-entry restriction** - Warning messages are flashed for possible invalid entries. This ensures all data inputted would be made useful for any transaction that may occur.
- **Auto-report generation** - The program is capable of generating reports and can be readily printed.
- **Password-protected** - The use of password is necessary to restrict unauthorized access. Thus the program only accepts passwords which are registered into it. This feature ensures the confidentiality and integrity of data entered in the program.
- **User-friendly** - The program user is guided by instructions in doing the next step providing an easy-use to process transactions.

Getting Started

How to Start the Program

- 1 Click the **Visual Dietary Program** executable file icon located in your computer desktop.
- 2 The **Login window** will be displayed asking the user to type his employee number and password for security purposes.

Figure 1: Login Window

- 3 If accepted, the user can now start a transaction. Otherwise, a message will be displayed prompting "Unauthorized User".

How to Change Password

It is advisable to change your password as often as possible for security reasons. To change your current password, follow these steps.

- 1 From the **Login** window, type your employee number and then press <Enter>.
- 2 Under the **Password** entry, press <F12>. Pressing this function key will invoke the **Change Password** window.

The screenshot shows a dialog box titled "Change User Password". It contains the following information:

- User ID: 035
- User Name: BAUTISTA ,MAYA ZAMBRANO
- Old Password: [input field]
- New Password: [input field]
- Confirm Password: [input field]
- Buttons: Save, Close

Figure 2: Change Password Window

- 3 Under the **Change Password** window, type the following data.
 - Old Password - Type your existing password.
 - New Password - Type your new password not exceeding to 15 characters.
 - Confirm Password - Retype your new password to confirm and then press <Enter> or you can click the Save button.

How to End the Program

It is important for users to close the program when they are done to end-up their session. Other users might use the open program using the same password.

To close the program:

- In the **Patient Searching** window, click **Exit** or
- Click the  located at the upper right corner of the main window.

Program Operation

Patient Searching

To start a transaction, you should first search a patient. Initially, all currently confined patients will be listed in the patients list after the program had accepted the user's employee number and password.

From the main window (default window), fill-up the following data under the patient searching window.

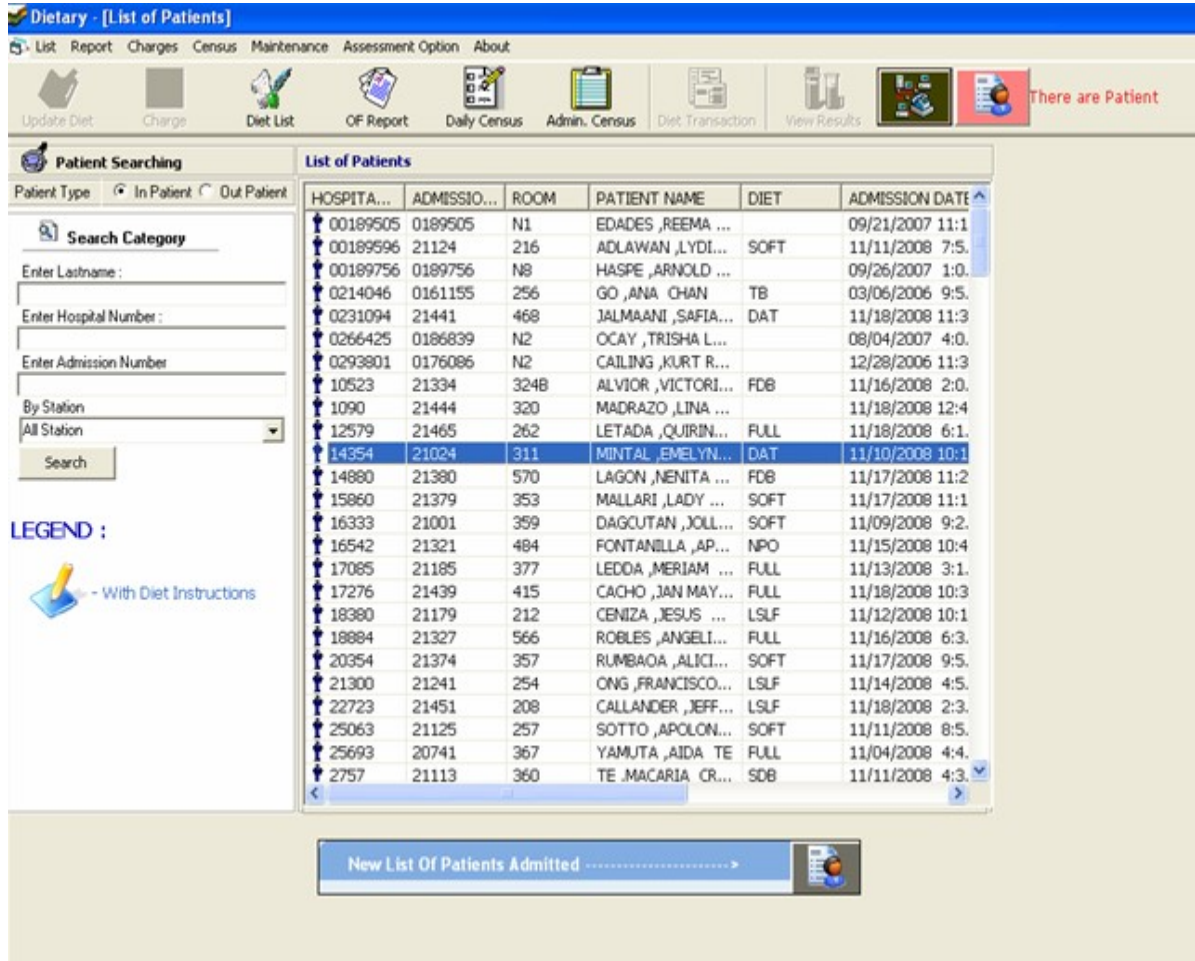

Figure 3: Patient Searching

- 1 Under **Patient Type**, click 'Inpatient' to search for inpatients, "Outpatient" to search for current outpatients, "Previously Confined" to search for previous inpatients, "Previous Out Patient" to search for previous outpatients or "Walk-In" to search for cash patients.
- 2 Under **Search Category**, type one of the needed data. It is advisable to just type the patient's last name for fast searching.
 - Enter Lastname: - Type the patient's last name and then click the **Search** button or
 - Enter Hospital Number: - Type the patient's hospital number and then click the **Search** button or
 - Enter Admission Number: - Type the patient's admission number and then click the **Search** button.
- 3 Upon clicking the **Search** button, patients listing will be displayed in the patient list window matching the query typed. Patients who have maintained room are also shown at the bottom part of the window. To start a transaction, you should choose a patient from the list by clicking the patient's name.

Figure 4: Patients Listing

Updating of Diet

This allows you to change the present patient's diet. Posted diet from the nursing station is displayed in the window for previous diet reference.

- 1 After *searching a patient* (see page 9), click  **Update Diet** toolbar button.
- 2 The **Updating of Diet** window will be displayed. Under the **New Diet** entry, enter the needed data.

Figure 5: Update Diet Window

- Code - Type the first few letters of the diet and then press <Enter>. A window will appear matching the query. Just double-click on the diet name to select. Or you can type directly the diet code to automatically display the diet description. Or you can click  to display the complete list of diet codes. Just double-click on the diet name to select.

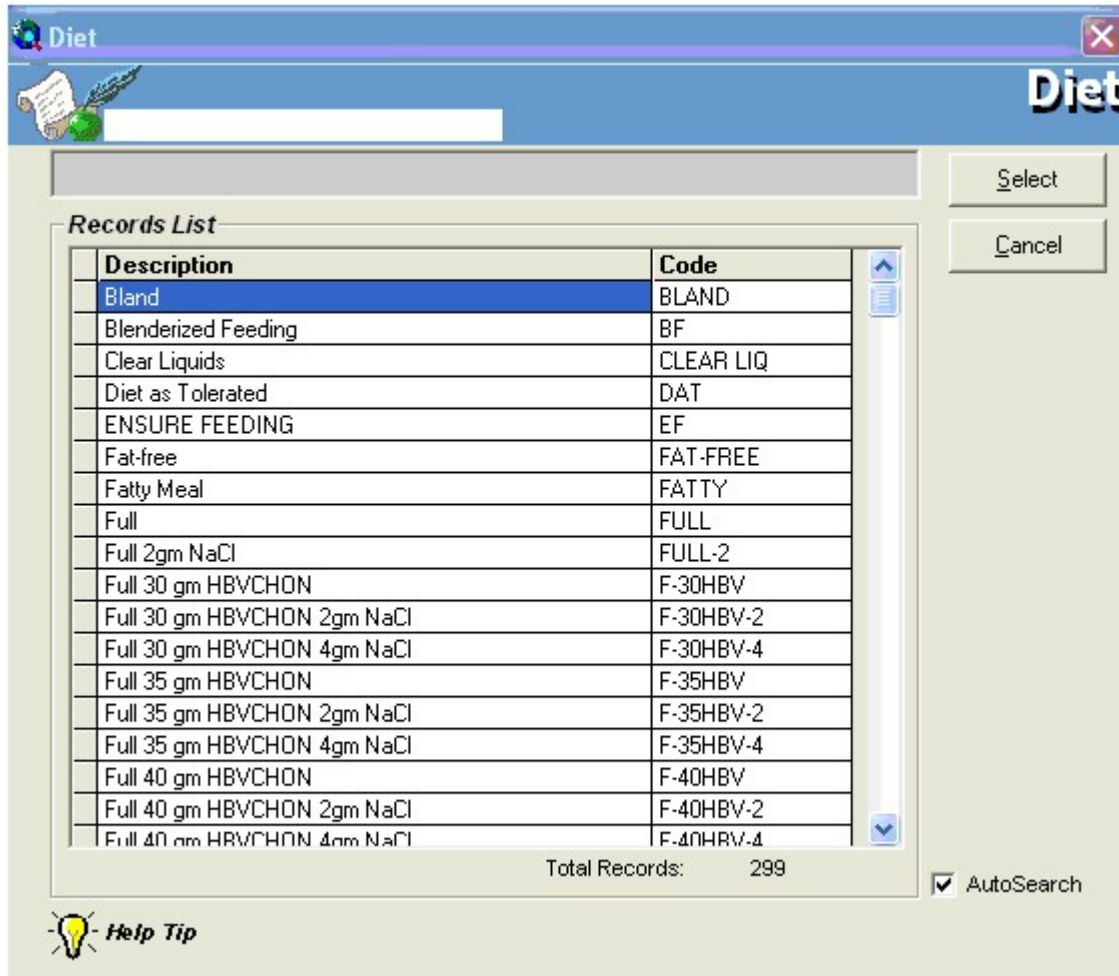

Figure 6: Diet Codes Listing

- Description - This will be automatically displayed by the program in relation with the selected diet.
- Remarks - Type additional notes about the selected diet.

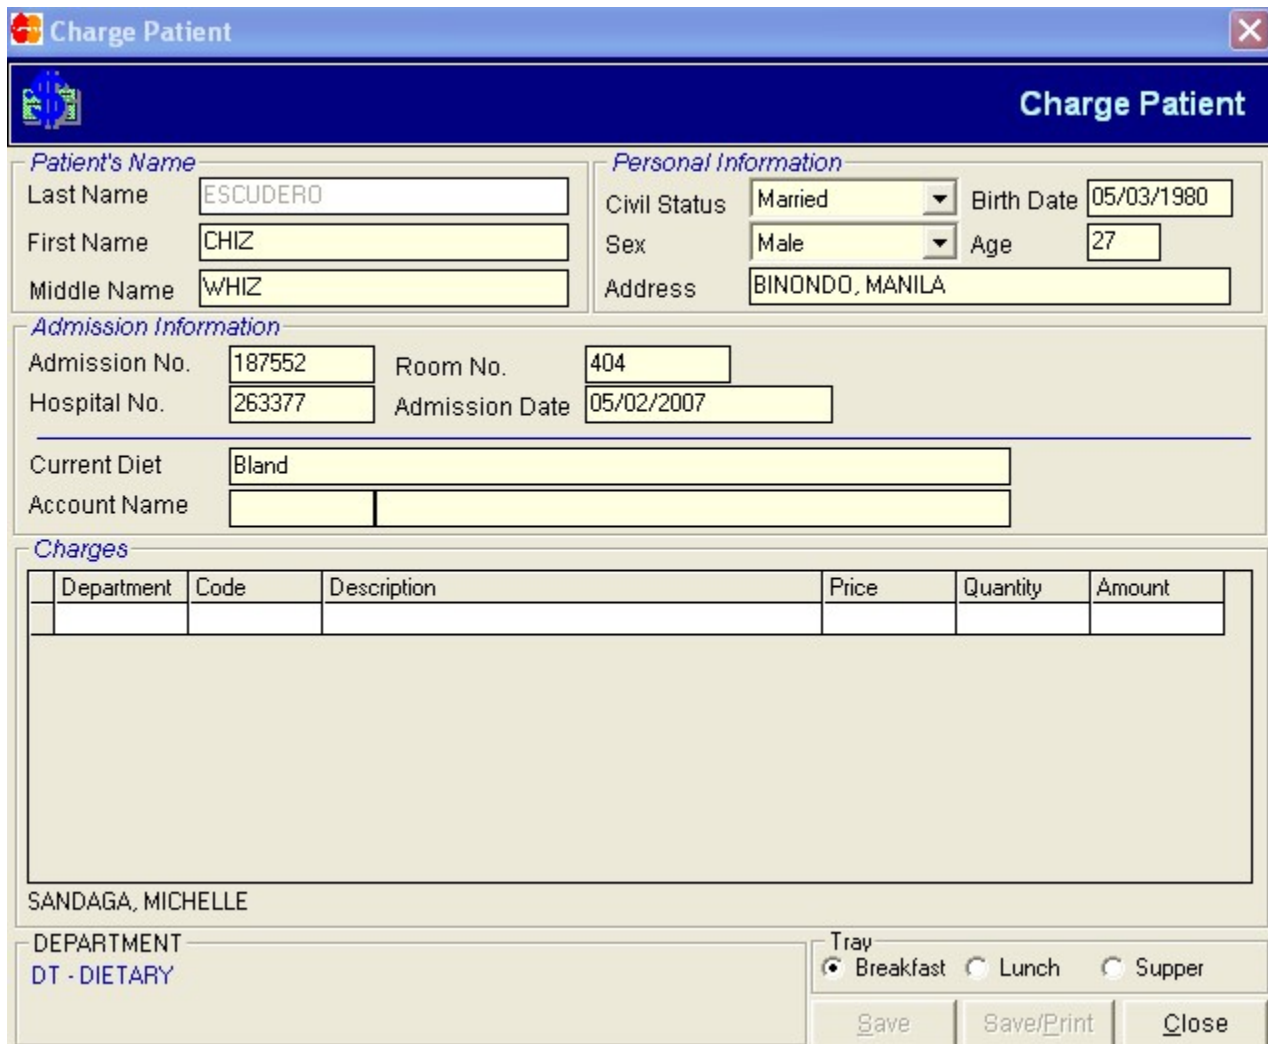

3 The following button options can be clicked from.

- Save - This will save the entered diet.
- Exit - This will close the Updating of Diet window.

Charging of Diet

This option allows you to charge diet, dietary miscellaneous, and diet plan of the patient.

- 1 After searching a patient (see page 9), click  **Charge** toolbar button.
- 2 The **Charging of Diet** window will be displayed.

Figure 9: Charge-slip Reprinting Window

- 3 Select the item you want to print by single-clicking on it. Click the **Print** button to print the selected item.

Viewing of Discharged Patients

This allows you to view all discharged patients since the selected date of patient's discharge.

- 1 Click **List > Discharged Patients** from the menu.
- 2 A window for date entry will appear. Select a report date by clicking on the drop-down arrow to display calendar and then click on the day of the month.
- 3 A printable report will be displayed. Click  to print.

Viewing of Admitted Patients

This allows you to view all admitted patients since the selected date of patient's admission.

- 1 Click **List > Admitted Patients** from the menu.
- 2 A window for date entry will appear. Select a report date by clicking on the drop-down arrow to display calendar and then click on the day of the month.
- 3 A printable report will be displayed. Click  to print.

Processing of Pending Requests

This allows you to view and process diet requests posted from the nursing station.

- 1 Click the blinking button .
- 2 The **Pending Requests** window will be displayed showing the list of posted requests from the nursing stations. To process a particular request, double-click the row where the diet is aligned. The Process Request window will appear. Click the **Save** button to accept the request. Otherwise, click the **Exit** button to close the Process Request window.

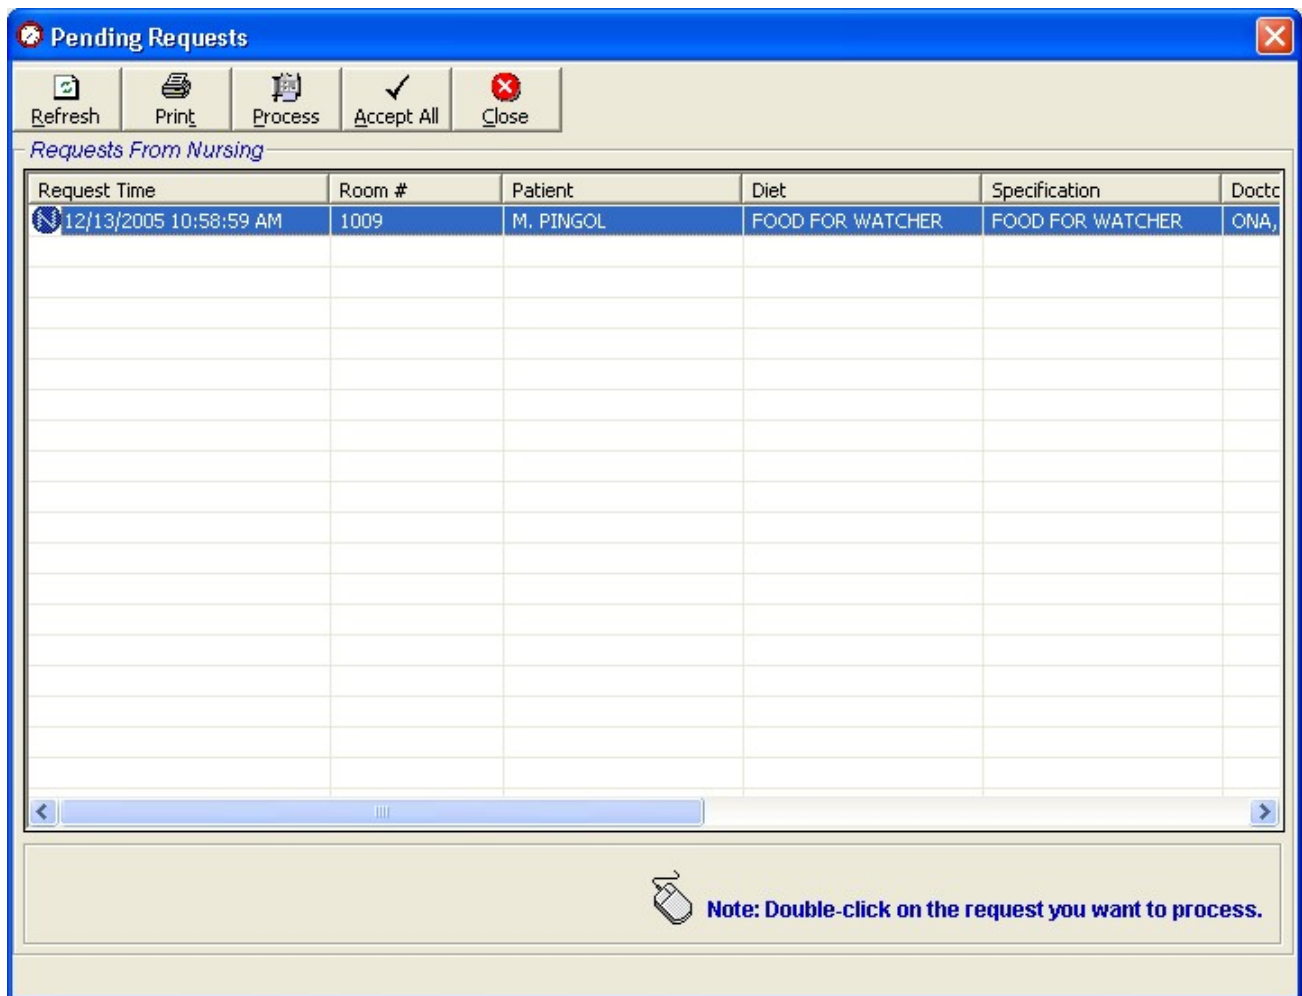

Figure 10: Pending Requests Window

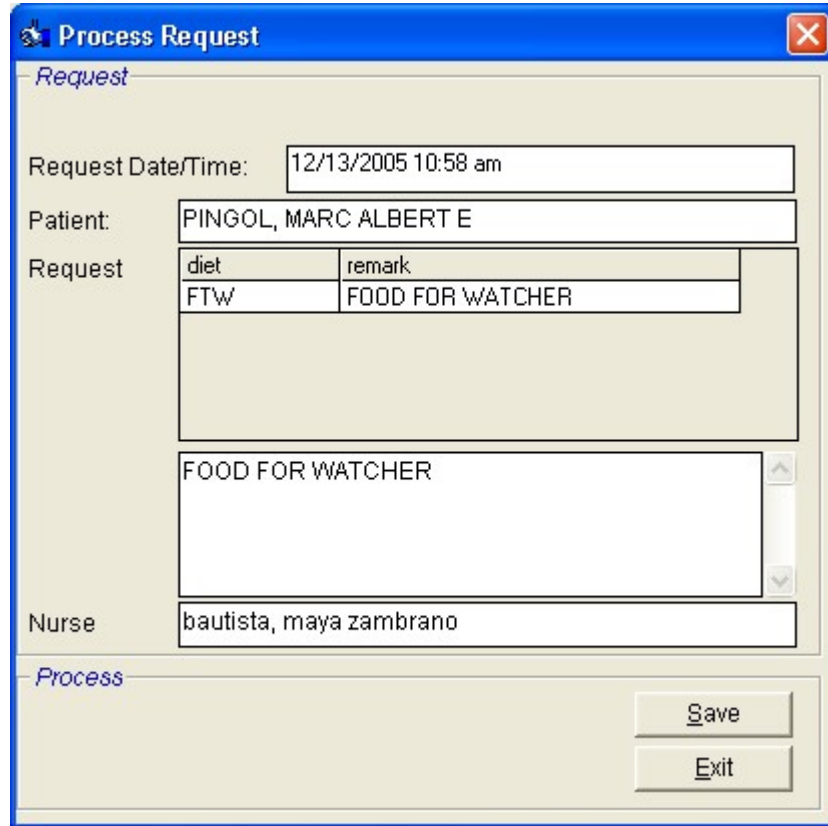

Figure 11: Process Request Window

3 The following button options can be clicked from.

Refresh - This button when clicked will display the current list of pending requests from the database.

Print - This will print the meal card of the posted diet requests.

Process - This will process the selected request from the list.

Accept All - This will process at once all pending requests.

Close - This will close the Pending Request window.

Clearing of Patient for Discharge

This option allows you to discharge patients in your department. Discharged patients will automatically be reflected in the Billing department.

- 1 Double-click on . Its window will be displayed showing the list of cleared and not cleared patients. (The legend of "Cleared" and "Not Cleared" patients can be seen at the bottom part of the window)

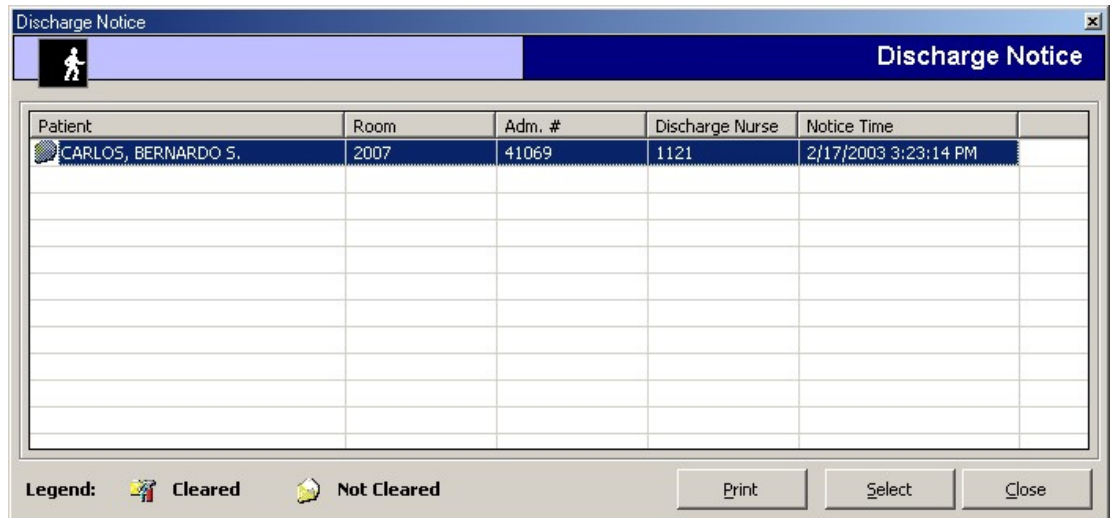

Figure 12: List of Discharge Notice(s) Window

- 2 Select an uncleared patient from the list and then click the **Select** button
- 3 A window for clearing patients will be displayed. Just type your remarks for clearing the patient.

The screenshot shows a software window titled "Clear Patient" with a sub-header "Clear Patient for Discharge". The window is divided into four main sections:

- Patient's Name:** Last Name: CARLOS, First Name: BERNARDO, Middle Name: SAN JOSE.
- Hospital Information:** Hospital No.: 1025005, Room No.: 2007, Admission No.: 41069, Admission Date: 1/20/2003, Attending Doctor: YBANEZ, MAYIDA PUREZA.
- Notice Information:** Notice Date/Time: 2/17/2003 3:23:14 PM, Order Date/Time: 2/17/2003 10:24:00 AM, Discharge Nurse: (1121) FLORENDO, FRANS. A large empty text box is provided for Remarks.
- Clearing Information:** Cleared by: (1121) FLORENDO, FRANS A, Cleared Date: For clearing, and a large empty text box for Remarks.

At the bottom right of the window, there are two buttons: "Save" and "Ignore".

Figure 13: Clearing of Patient for Discharge Window

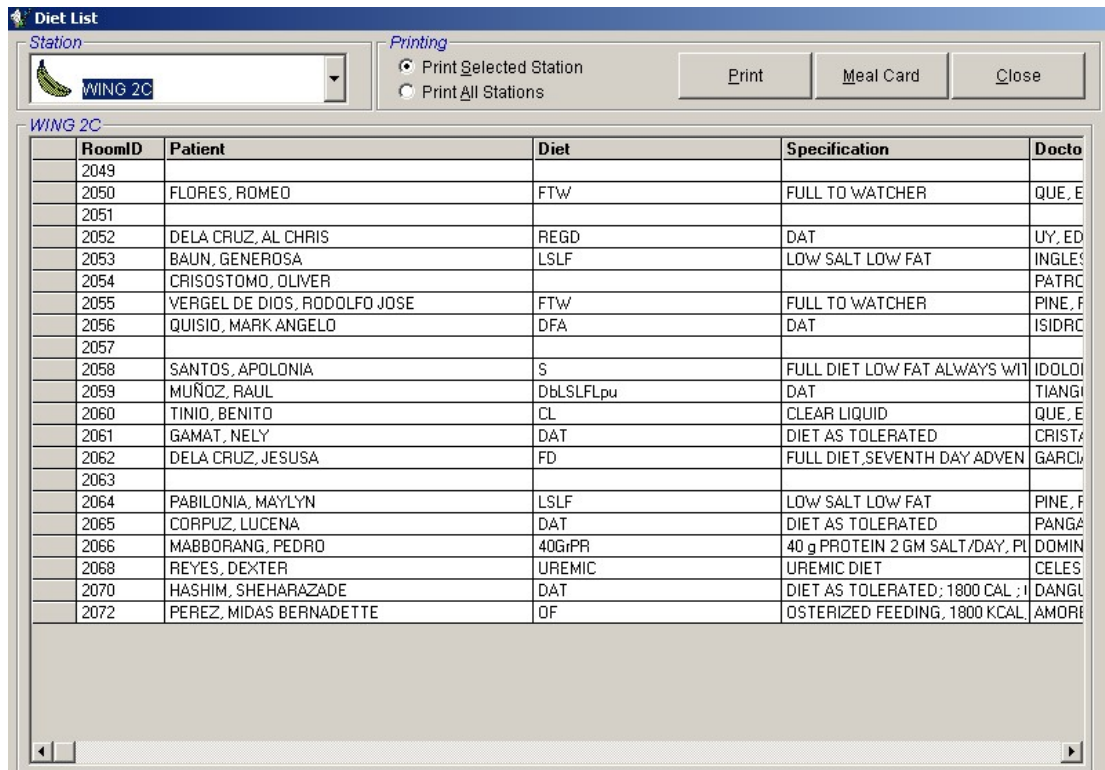

- 4 The following button option can be clicked from
- **Save** - Click this button to clear the patient in your department.
 - **Ignore** - Click this button to ignore clearing the patient.

Reports and Census

Reports

1 OF Report - To view osterized feeding report, click  **OF Report** toolbar button. A window for date entry will appear. Select a report date by clicking on the drop-down arrow to display calendar and then click on the day of the month. A printable report will be displayed. Click  to print.

2 Diet Report - Click  **Diet List** toolbar button. The **Diet List** window will be displayed. You need to fill-in the following data.

The screenshot shows the 'Diet List' window. At the top, there is a 'Station' dropdown menu with 'WING 2C' selected. To the right, there is a 'Printing' section with two radio buttons: 'Print Selected Station' (selected) and 'Print All Stations'. There are three buttons: 'Print', 'Meal Card', and 'Close'. Below this is a table with the following data:

Figure 14: Diet List Window

- Under **Station** entry, click the drop down arrow to display list of stations. Click the station you want to view. The diet list of the selected station will be then displayed just below it.
- Under **Printing** option, select one from the given options.
 - ☑ Print Selected Station - This will only display diet list from the selected station.
 - ☑ Print All Station - This will display all diet list from all stations.

- The following button options can be clicked from.
 - Print - This will display a printable report of the diet list in relation with the printing option selected.
 - Close - This will close the **Diet List** window.

Census

1 Daily Census - Click  **Daily Census** toolbar button. A window for date entry will appear. Select a report date by clicking on the drop-down arrow to display calendar and then click on the day of the month. A printable report will be displayed. Click  to print.

2 Administrative Census - Click  **Administrative Census** toolbar button. A printable report will be displayed. Click  to print.

Diet List Maintenance

This option helps you maintain currently used diet list. In here, you can add or edit a particular diet.

- 1 Click **Maintenance > Diet List** from the menu.
- 2 The **Build Diet List** window will be displayed showing the diet list.

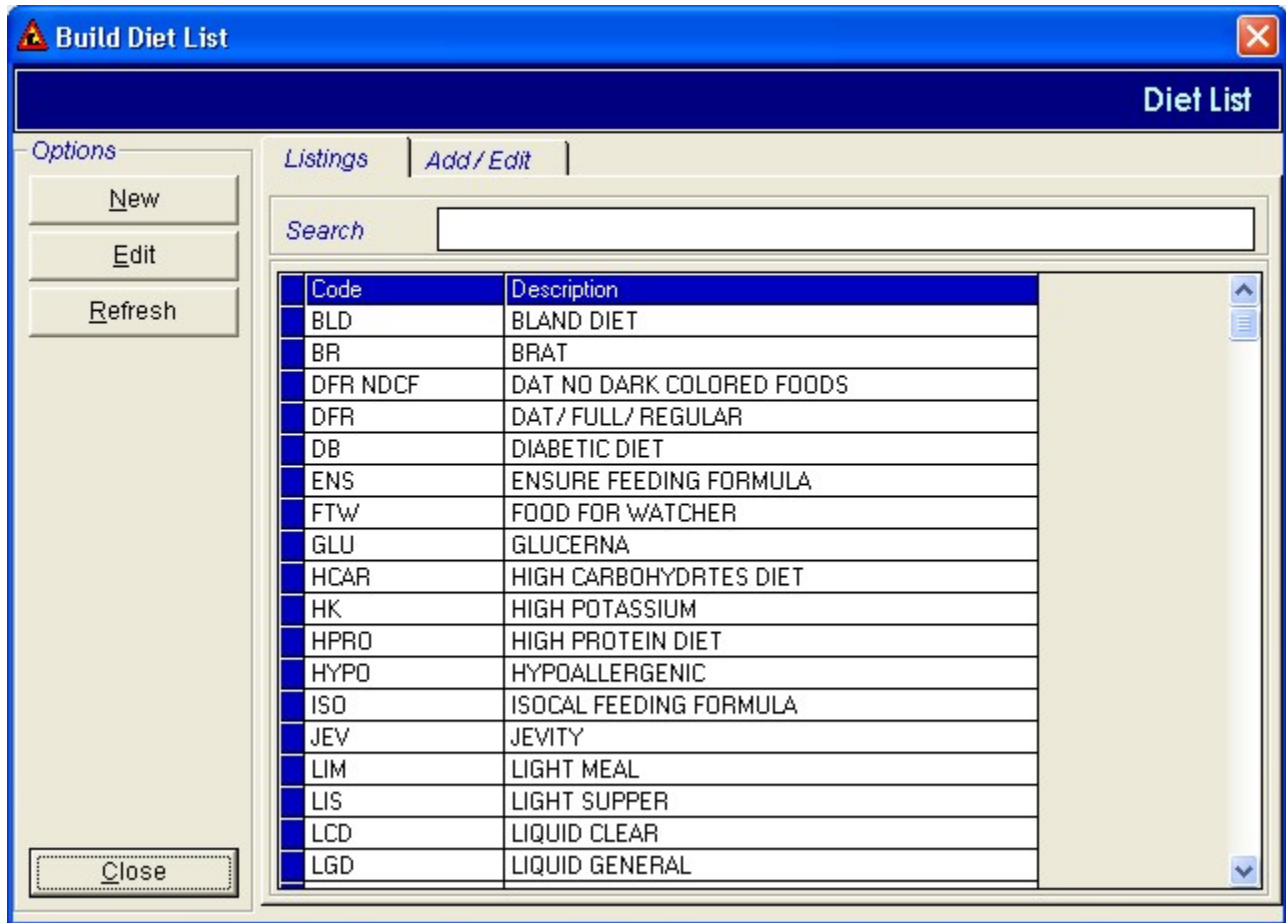

Figure 15: Diet List Maintenance Window

- To add a new diet, click the **New** button. Enter the needed data.
 - ▼ Code - Type a code of the new diet.
 - ▼ Description - Type a description of the new diet.
 - ▼ Diet Type - Click  to display the list of diet types. Double-click on the diet type to select.
 - ▼ Classification - Choose one from Full or Therapeutic.
- To edit an existing diet, click a diet from the list and then click the **Edit** button. You can now make changes on the existing data.

3 The following button options can be clicked from.

- Save - This will save the new diet or the edited diet.
- Cancel - This will undo the saving option.

Diet Type Maintenance

This option helps you maintain currently used diet types. In here, you can add or edit a particular diet type.

1 Click **Maintenance > Diet Type** from the menu.

2 The **Build Diet Type** window will be displayed showing the list of diet types.

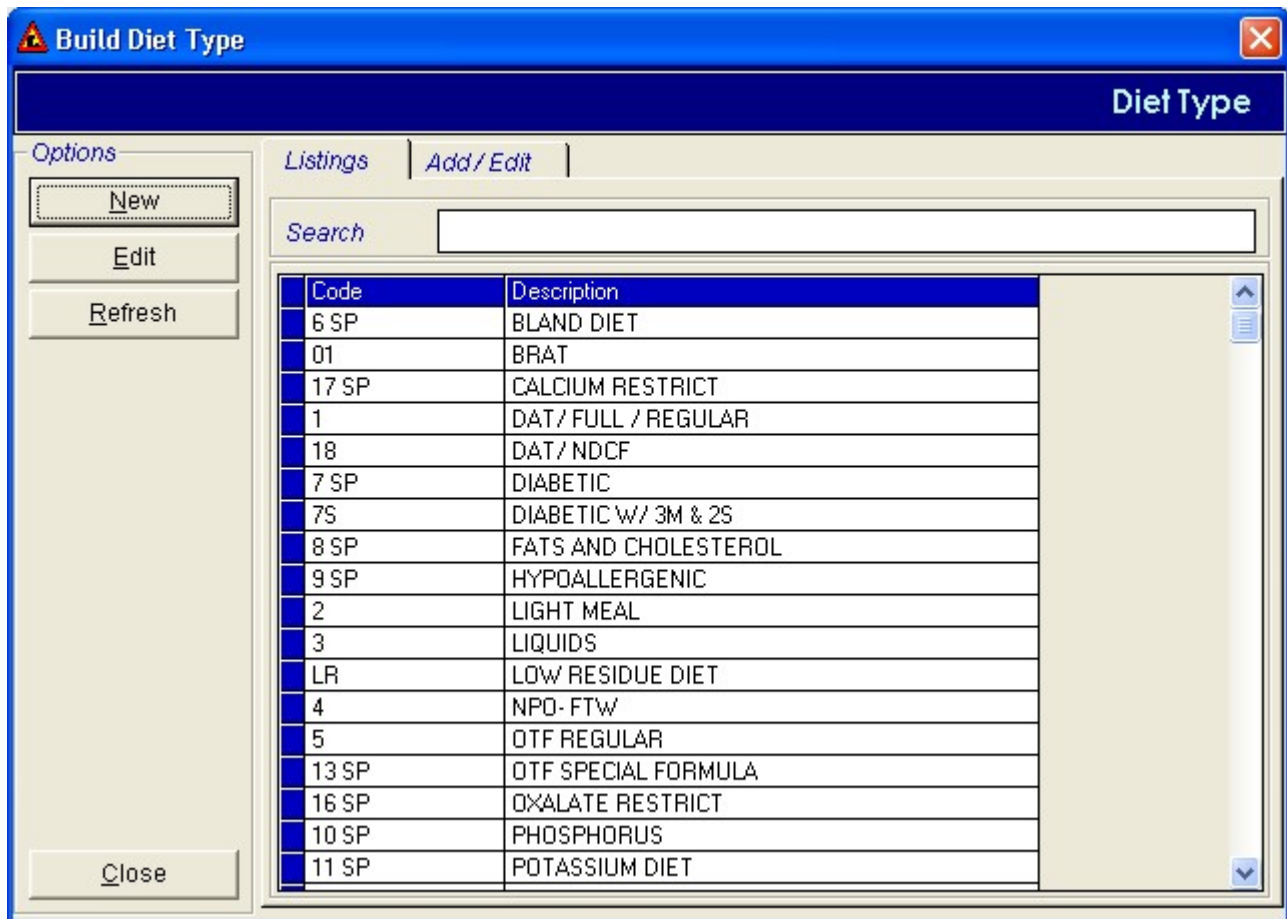

Figure 16: Diet Type Maintenance Window

- To add a new diet type, click the **New** button. Enter the needed data.
 - Code - Type a code of the new diet type.

• Description - Type a description of the new diet type.

- To edit an existing diet type, click a diet type from the list and then click the **Edit** button. You can now make changes on the existing data.

3 The following button options can be clicked from.

- Save - This will save the new diet type or the edited diet type.
- Cancel - This will undo the saving option.

Room Classification Maintenance

This option helps you maintain currently utilized room classification. In here, you can add or edit a particular room classification.

1 Click **Maintenance > Room Classification** from the menu.

2 The **Room Classification window** will be displayed showing the list of rooms.

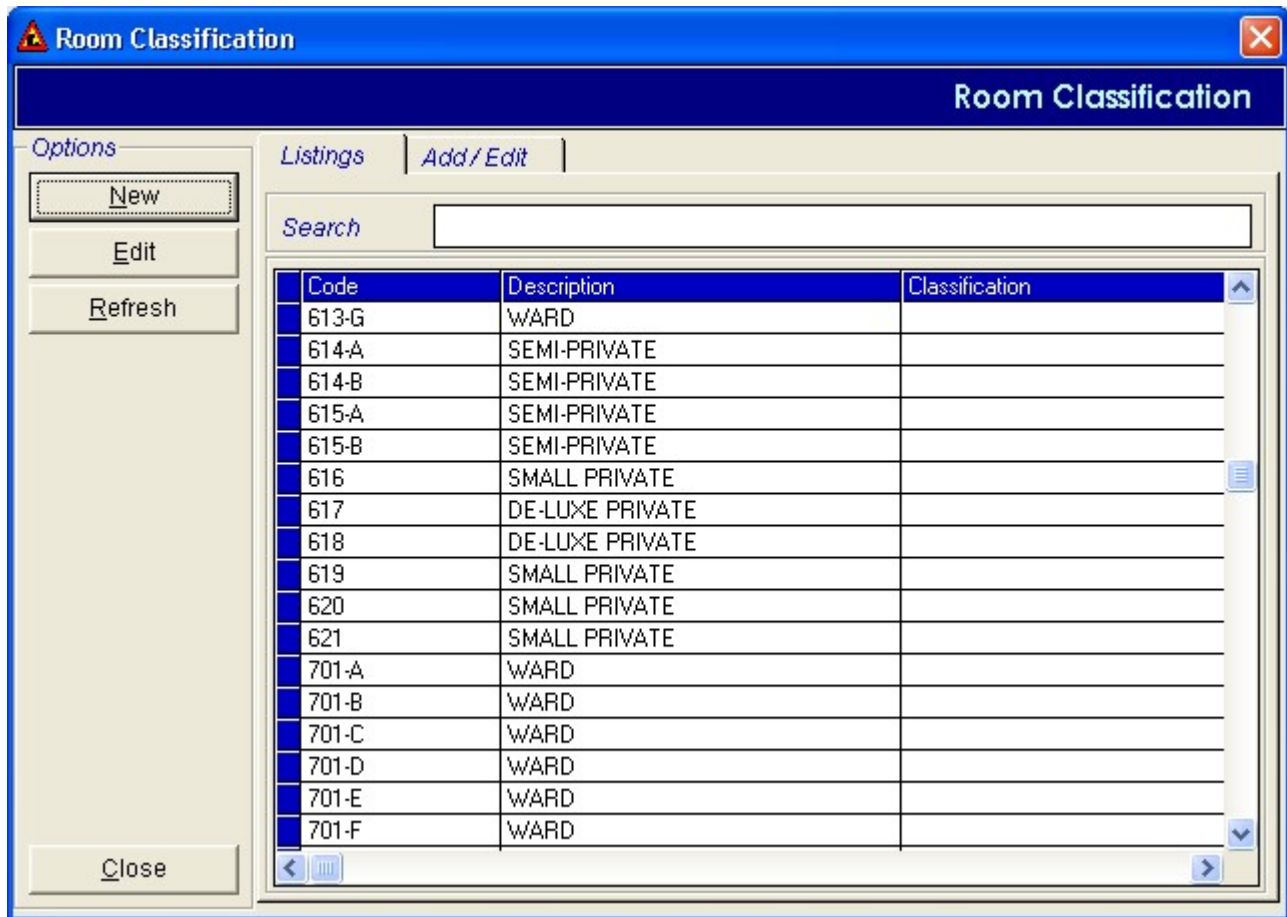

Figure 17: Room Classification Maintenance Window

- To add a new room, click the **New** button. Enter the needed data.
 - Code - Type a code of the new room classification.
 - Description - Type a description of the new room classification.
 - Classification - Click  to display the list of room class. Double-click on the room class to select.
- To edit an existing room, click a room from the list and then click the **Edit** button. You can now make changes on the existing data.

3 The following button options can be clicked from.

- Save - This will save the new room or the edited room.
- Cancel - This will undo the saving option.

Assessment Entry

This option is for the request entry for cash-basis patients.

- 1 Click **Assessment Option > Assessment Entry** from the menu.
- 2 The **Assessment Entry** window will be displayed. Enter the following data.
