Step 6. Go to your desktop and open Medsys PACS Launcher icon.

The first time you open it, it will require the PACS server admin account. **Username:** administrator **Password:** a1234(shift)5678 Check the box **"Remember my credentials"** to connect it automatically next time you open it.

Step 7. Register Medsys Software.

🎨 Medsys Registration	×
Contact Medsys Staff for the registration key.	
<u>K</u> ey:	<u>R</u> egister
****	Unregister
MMMHMC <u>G</u> enerate	
	A V
ммнис	

Type on the box (circled on red) **med@k.** Type **MMMHMC** on the box before Generate button. Click on **Generate** button to generate softaware key.

🎨 Medsys Registration	×
Contact Medsys Staff for the registration key.	
<u>К</u> еу: <mark>58E8</mark>	<u>R</u> egister
****	<u>U</u> nregister
<u>G</u> enerate	
<u>SBE8</u>	A
мммнмс	

Copy the generated characters and paste it on the **Key** box. Click **Register** button afterwards. A small window will appear saying that it was registered successfully.

Step 8. Setup up connectivity.

-•• MEDSYS Logon build:1 0 21			
med	sys		v5.5 KCCI about
🔑 Employee Numbe	er:		
Passwor	rd: ******		
Time Sync << <u>S</u> erver	Enter	Exit	build 21
- Server Login		SQL 2000) - Driver Connection
Servi	PASSWORD	ODBC:	(00) Convert
Databas	e. FASSWORD	Native:	(Sel Server)
<u>U</u> si	er: Sa	Provider :	= SQLOLEDB
P <u>a</u> sswor		SQL 2005	i .
Driver Connectio	n: Provider=SQLOLEL	Default ODBC	
Register Medsys Software	Test Connect	ion Driver = {	(SQL Native Client)
	🗖 Auto Finger Scan	Provider	= SQLNCLI

Hit (space)medsys on keyboard under the Password box. Fill in the Server Login. Server: MEDSYS-PACS\PACS or 192.168.100.1\PACS Database: PASSWORD User: sa Password: pacs

Click the **Test Connection** button to test the connection.

Password	×
•	Connection Succeeded!
	ОК

Connection Succeeded window will appear if connected successfully. Otherwise, Error Accessing Server will appear if not connected successfully. Double-check the entries on Server Login to see if the entered data are correct.

Step 9. Try to login using your user account. The installation is successful once you have logged in successfuly.

Notes:

1. Administrator account should be enabled.

To do this, right-click on My Computer and select Manage.

Look for Local Users and Groups. Go to Users and search for Administrator account. Right-click it and go to Properties.

Uncheck Account is disabled button then click OK.

2. Medsys Launcher exe should be executable.

To do this, go to run command and type **gpedit.msc** to go to Group Policy Object Editor. Under **User Configuration**, go to **Administrative Templates -> Windows Components -> Attachment Manager.**

Look for the setting **Inclusion list for low file types.** Right-click it and go to **Properties.** Select **Enabled** and type **.exe** on the **Specify low risk extension files.** Click **OK** to save changes.
